ITANGAZO RY'ISOKO

Introduction

Since 2024, YWCA Rwanda has been implementing a six-year education-focused program in partnership with UNICEF, FCDO, and MINEDUC. The program aims to create safe, inclusive, and empowering learning environments for learners across Rwanda, with a particular focus on adolescent girls in upper primary school. Operating in all 30 districts and targeting over 80,000 learners, the program integrates life skills education, SRHR, HIV prevention, GBV awareness, and mental health support, as part of a comprehensive response to the challenges that continue to undermine girls' access to and success in education.

YWCA Rwanda leads the implementation in Karongi and Gisagara districts, directly reaching 280,312 students and indirectly engaging over 1,000,000 beneficiaries, including parents, teachers, and community members. A central pillar of the program is the establishment of school clubs, capacity-building for facilitators, and community engagement, all aimed at empowering adolescent girls as leaders and change agents.

Despite these efforts, many students especially girls continue to face economic and social barriers that hinder their school attendance and academic progress. These include lack of basic school materials, which often leads to absenteeism, low participation, poor performance, and in some cases, permanent dropout. Girls are disproportionately affected, particularly those from vulnerable households or those experiencing the effects of teenage pregnancy, gender-based violence, or psychosocial distress.

To address these challenges, the program includes a targeted support component under which 2,950 vulnerable students from 59 schools will receive essential school materials. This intervention is part of a broader effort to ensure that no child is left behind due to a lack of basic learning resources, and that all students have a fair opportunity to succeed and complete their education.

It is against the above background, YWCA intends to procure and distribute school materials to program participants in Karongi and Gisagara.
