Client: WASAC Group Ltd

Date: 13/04/2026

1. **Background**

Water and Sanitation Corporation (WASAC) Group Ltd, is committed to improving the efficiency and sustainability of the water supply sector. However, Non-Revenue Water (NRW) remains a major challenge, currently estimated at about 37.8%, leading to significant water losses, reduced revenues, and operational inefficiencies.

Reducing NRW is a key priority under the National Strategy for Transformation (NST2) 2024–2029, which targets lowering NRW to 20% by 2029. Achieving this target is essential for improving service delivery, strengthening financial sustainability, and enhancing climate resilience.

WASAC has implemented several NRW reduction initiatives, which demonstrate that results can be achieved through data-driven and well-coordinated interventions. However, NRW levels and causes vary across branches and districts, requiring a structured national approach.

In this context, WASAC intends to develop a National NRW Reduction Programme and seeks to recruit an Individual Consultant (NRW Expert) to support its preparation, including the development of a donor-ready funding proposal to mobilize resources for implementation.

To ensure quality assurance, effective coordination, and technical review, WASAC Group Ltd seeks to hire an Individual Consultant–Non-Revenue Water Expert for a development of the National Non-Revenue Water (NRW) Reduction Programme for Rwanda.
